According to out-door representation, Senator Sumner made a speech in its favor, when the subject was passed over until to-morrow, when the Senate wil meet at eleven o'clock, in order to afford ample opportunity for discussion, so that a ote may be reached before the adjournment on the same day. The prospect now is that the treaty will be ratified by the reaired two thirds vote. Prompt action is induced by the fact that the treaty, according to report, allows only three months in
